

HERMAN MILLER AOII OFFICE SYSTEMS

The workhorse that gets the job done.

Furnish your space with a system that works as hard as you do. The Herman Miller Action Office System is a modular, private workspace that's built with commercial-grade materials to last. CORT's Panel System blends comfort, convenience and flexibility. To enhance productivity, storage and tools are easily accessible and acoustic panels provide barriers from distraction. Priced to move only while quantities last—all CORT Certified™. So if you're not fully satisfied, return within 14 days, no questions asked.

CUSTOMIZED HERMAN MILLER AOII PANEL SYSTEMS FROM CORT

Our hard-working office systems have built-in benefits.

Herman Miller AOII customizable panels, work surfaces, and storage systems aren't just flexible—they're also functional, with features that foster a productive working environment:

- The acoustical panels have an NRC (Noise Reduction Coefficient) of .60 and an STC (Sound Transmission Coefficient) of 28, greatly helping to eliminate distractions and promote productivity, while also providing privacy and personal space.
- Each workstation is as durable as it is comfortable, constructed with 600 lb.-tested steel-rod connectors, and meeting a Class A fire rating, as well as all ADA (American Disabilities Act) requirements.
- AOII products meet all ANSI (American National Standards Institute) and BIFMA (Business and Institutional Furniture Manufacturers Association) standards.
