

Zubri Patio Heater Assembly Instructions

From this.....To this... In 5 Easy Steps

- Easy Storage
- Easy to Transport
- Easy to Carry

1. Attach Legs

- Snap legs in place.

2. Attach Reflector

- Remove reflector from case.
- Attach reflector onto threaded rod.
- Fold over special catch, securing reflector (Or place wing nut on the top and tighten).

3. Propane Tank

- Hang propane tank using bracket provided.
- Attach hose to propane tank, tighten securely.
- Heater is now stabilized.

4. Attach Skirt

- Wrap skirt around heater legs to cover propane tank.
- Zip up and secure with velcro closure.

5. Light & Enjoy!

- Turn on gas at propane tank.
- Hold match under burner head.
- Push and turn gas control knob to middle position.
- After heater lights, hold down control knob for 45 seconds, release slowly and adjust heat.
